

12th International Scientific and Practical Coiled Tubing and Well Intervention Conference

PROGRAMME of the CONFERENCE (September 15)

- 09.00 - 10.00 Registration for the conference. Morning tea/coffee.
- 10.00 Welcoming speech by L. Hruzdilovich, Chairman of the Conference's Program Committee, Chairman of the FID Group.
- 10.10 - 11.30 TECHNICAL SESSION 1.
Comprehensive Approach to Production Stimulation of Massive Cold Heterogeneous Carbonate Formation.
V. Dnistryansky, A. Mokshaev, R. Ilgildin (Gazprom Dobycha Orenburg, LLC), R. Kayumov, M. Lobov, K. Burdin (Schlumberger Logelco Inc.)
Modern Approaches to Development of Interaction between Russian Science, State and Business.
M. Silin (Gubkin Russian State University of Oil and Gas)
Experience of Coiled Tubing Sidetracking at the Fields of RUE "Production Association "Belorusneft".
N. Demyanenko, Yu. Butov, A. Bogatko, P. Revyakov (BelNIPIneft of RUE "Production Association "Belorusneft")
- 11.30 - 12.00 Coffee break.
- 12.00 - 13.30 TECHNICAL SESSION 2.
CT Perforation Experience in Russia.
M. Nepomiluev, D. Popov, K. Burdin (Schlumberger Logelco Inc.), R. Zaripov (Gazprom Dobycha Urengoy, LLC), P. Tokarev (Urengoy Bureniye, Branch of Gazprom Bureniye, LLC), V. Reshetnikov (Severgazgeophysika, Branch of Georesource, LLC)
Coiled tubing drilling equipment. Directional drilling system SNB89-76M.
S. Atrushkevich (Novinka, CJSC)
Spoolable CT Connectors: Development, Performance, Advantages and Applications.
B.H. Luft (Trican Well Service Ltd.)
- 13.30 - 14.30 Lunch.
- 14.30 - 16.00 TECHNICAL SESSION 3.
CTS Experience on VCNG Field 2010-2011.
K. Basanov, T. Demenchuk, K. Burdin (Schlumberger Logelco Inc.)
Coiled Tubing is able to transmit Highly-Viscous Plugging Fluid and Magnetic Substances for Water Shutoff in Oil Wells.
I. Bukrinsky, Yu. Balakirov, V. Brovchuk, Ya. Boyko (Yug-Neftegaz, LLC)
ISOJET Technology of Abrasive Jet Perforation of Production String with Coiled Tubing Utilization and Subsequent Performing of Hydraulic Fracturing.
S. Zagranichny (Trican Well Service Ltd.)
Equipment for High Technology Operations for Oil and Gas Recovery Enhancement and Squeeze Cementing.
Yu. Belugin (NOV Fidmash)
- 16.00 - 16.30 Coffee break.

CONFERENCE SPONSORS:

Gold Sponsor

Silver Sponsor

Workshop Sponsor

Catalog Sponsor

16.30 - 18.00 TECHNICAL SESSION 4.

New Chemicals for Hydraulic Fracturing, Developed in Gubkin Russian State University of Oil and Gas.

L. Magadova, V. Magadov, D. Malkin, V. Diachenko (Gubkin Russian State University of Oil and Gas)

Post Fracturing Coiled Tubing Intervention Experience on Multistage Horizontal Wells.

M. Aglyamov, K. Burdin (Schlumberger Logelco Inc.), V. Kovalev (Lukoil-Western Siberia, LLC)

Protection of Oilfield Equipment with the Help of Scaling Inhibitors.

A. Denisova (FLEK, LLC)

19.30 - 22.30 Motor ship "Barin" cruise of Moscow River.

PROGRAMME of the CONFERENCE (September 16)

10.00 - 11.30 TECHNICAL SESSION 5.

Modern Technical and Technological Opportunities for Coal Bed Methane Development.

L. Hruzdilovich, I. Pirch (FID Group)

First Experience of Development and Workover of Multilateral Wells with Utilization of Coiled Tubing Orientator.

D. Tretjakov, M. Halai (BelNIPIneft of RUE "Production Association "Belorusneft")

Cleaning of the Tubing String Inner Surface.

Yu. Shtakhov (RosTEKtehnologii, LLC)

11.30 - 12.00 Coffee break.

12.00 - 13.30 TECHNICAL SESSION 6.

Technologies of CT Conveyed Well Workover and Maintenance.

A. Anopov (Weatherford International Ltd.)

Application of Abrasi FRAC Technology for Through Tubing Intervention.

D. Yanchuk, K. Burdin (Schlumberger Logelco Inc.), I. Bataman (RN-Yuganskneftegaz, LLC)

Efficiency of Utilization of Coiled Tubing with Nitrogen Compressor Stations in Oil and Gas Industry.

O. Kihlenko (Industrial Group "TEGAS")

13.15 Welcoming speech by Hruzdilovich L.M., Chairman of the Conference's Program Committee, Chairman of the FID Group.

13.30 - 14.30 Lunch.

MEDIA PARTNERS of the CONFERENCE:

General Media Partner

Media Partners

Strategic Media Partner
